3. NO MEDICAL OR HEALTHCARE SERVICES

Miracle Peptides is not a medical practice, pharmacy, compounding pharmacy, healthcare facility, telemedicine provider, prescribing service, or medical clinic.

Nothing appearing on our website, product pages, labels, packaging, research materials, emails, text messages, social-media pages, blogs, customer-service communications, or other materials is intended to constitute medical advice, a diagnosis, a treatment recommendation, dosage guidance, administration instructions, a prescription, a recommendation for personal use, or a substitute for professional medical care.

Customers should not provide Miracle Peptides with medical records, prescriptions, patient information, medical histories, treatment plans, dosage questions, or other health information.

Miracle Peptides personnel are not authorized to advise customers regarding the use of research products on humans or animals.

4. FDA AND REGULATORY STATUS

Statements appearing on our website have not necessarily been evaluated by the FDA.

The appearance of a compound name, scientific publication, research summary, study, chemical description, or research reference on our website does not mean that Miracle Peptides represents that a product is safe, effective, approved, or suitable for any medical or personal-use purpose.

Miracle Peptides does not represent itself as a facility operating under Sections 503A or 503B of the Federal Food, Drug, and Cosmetic Act.

5. CUSTOMER ELIGIBILITY

By accessing purchasing features or submitting an order, you represent that you are at least 21 years old; have legal capacity to enter into a binding agreement; your purchase and possession of the requested product are lawful in your jurisdiction; you have sufficient scientific training, qualifications, professional experience, laboratory affiliation, or other legitimate research basis to safely possess and handle the product; you have access to suitable research facilities and appropriate protective equipment; you understand the potential hazards associated with research chemicals; you will follow applicable safety data, handling procedures, laws, and regulations; you will not purchase products for human or veterinary consumption; and information provided to Miracle Peptides is accurate and complete.

Submission of an order does not guarantee that the order will be accepted. Miracle Peptides may delay, cancel, reject, or request additional information concerning any transaction.

7. PROHIBITED USES

Miracle Peptides products may not be purchased, resold, transferred, distributed, promoted, or used for an unauthorized purpose.

Prohibited purposes include, without limitation, human consumption; injection or administration to a person; veterinary administration; animal consumption; treatment or prevention of disease; personal weight-loss purposes; bodybuilding or athletic performance enhancement; hormone optimization; anti-aging treatment; cosmetic treatment; sexual-health treatment; self-experimentation; patient treatment; clinical treatment; medical-office administration; pharmacy compounding without lawful authorization; consumer household use; use contrary to product labeling; use prohibited by applicable federal, state, local, or international law; or resale or distribution for any prohibited purpose.

This list is illustrative and is not exhaustive.

8. COMMUNICATIONS INDICATING MISUSE

Miracle Peptides may refuse service when communications, order activity, purchasing patterns, social-media activity brought to our attention, payment information, customer statements, or other reasonably available information causes us to believe that a product may be used contrary to these Terms.

Customers should not contact Miracle Peptides seeking information about personal dosing, injection amounts, injection frequency, reconstitution for personal administration, human-use protocols, human cycles or stacks, expected personal weight loss, expected medical outcomes, treatment recommendations, or similar personal-use instructions.

Miracle Peptides may terminate further communications regarding an order if such requests indicate an intended prohibited use.

9. RIGHT TO REFUSE OR TERMINATE SALES

Miracle Peptides reserves the right to decline to do business with any customer when permitted by law.

We may refuse, hold, cancel, limit, or terminate an order or account if we reasonably suspect unauthorized use, fraud, identity misrepresentation, payment fraud, chargeback abuse, resale contrary to these Terms, incorrect customer information, unauthorized medical or personal use, regulatory concerns, sanctions or export-control concerns, excessive purchasing inconsistent with the stated research purpose, or any other violation of these Terms.

A customer whose purchasing privileges have been terminated may not create another account or use another person's information to bypass the restriction.

10. INTERNAL COMPLIANCE RECORDS

To support lawful operations, Miracle Peptides may maintain records concerning customer verification, order acceptance, order rejection, suspicious communications, compliance reviews, fraud investigations, repeated account creation, chargebacks, product misuse concerns, account restrictions, and refusal-to-sell decisions.

Information will be handled in accordance with our Privacy Policy and applicable law.

11. CUSTOMER RESPONSIBILITY FOR LEGAL COMPLIANCE

Laws applicable to research compounds can differ among jurisdictions and can change.

It is the customer's responsibility to determine, before placing an order, whether acquisition, possession, transportation, research, storage, transfer, or disposal of a product is lawful in the jurisdiction applicable to the customer.

Miracle Peptides does not guarantee that a product may legally be purchased or possessed in every city, county, state, territory, country, or other jurisdiction. We may restrict sales or shipping destinations at any time.

12. PRODUCT INFORMATION

We attempt to provide accurate product descriptions and information. However, research products and related scientific information may change.

Descriptions on the website are provided for informational and identification purposes and should not be interpreted as medical claims.

A photograph of a product may not perfectly represent the appearance, packaging, vial, cap, label, or container ultimately shipped.

We reserve the right to modify packaging or labeling without prior notice when doing so does not materially alter the research product ordered.

13. CERTIFICATES AND TESTING

Where available, Miracle Peptides may provide Certificates of Analysis, laboratory testing information, batch or lot information, or other product documentation.

Such documentation relates only to the product, sample, lot, or batch identified in the corresponding document.

A Certificate of Analysis does not constitute FDA approval, authorization for human use, a prescription, medical advice, or a guarantee that a product is appropriate for any particular experiment.

Customers remain responsible for determining whether a product is appropriate for their research.

14. SAFETY AND HANDLING

Research compounds may present known or unknown hazards.

Customers are responsible for reviewing applicable safety information; maintaining suitable laboratory controls; using appropriate personal protective equipment; preventing unauthorized access; following safe storage practices; preventing contamination; maintaining appropriate environmental conditions; properly documenting laboratory use; and disposing of research materials in accordance with applicable requirements.

The customer assumes responsibility for safe possession, handling, storage, research, transportation, and disposal after delivery.

15. ORDERS

All orders constitute an offer to purchase. Miracle Peptides may accept or reject an order in its discretion, subject to applicable law.

We may impose product quantity limits, order limits, geographic restrictions, verification requirements, or additional compliance requirements.

Receipt of an automated order confirmation does not necessarily constitute final acceptance of an order.

16. PRICING

Prices are displayed in U.S. dollars unless otherwise indicated.

We may modify pricing at any time before an order is completed.

Prices do not necessarily include applicable sales taxes, shipping charges, processing costs, duties, import charges, or other governmental fees.

If an obvious pricing error occurs, we reserve the right to cancel the affected order and refund amounts collected for that order.

17. PAYMENT

Customers authorize Miracle Peptides and our payment providers to charge the payment method submitted at checkout for the amount shown at the time of purchase.

Customers represent that they are authorized to use the payment method provided.

Orders may be subject to fraud prevention and payment verification. We may cancel a transaction if payment cannot be verified or if the transaction presents an unacceptable fraud or compliance risk.

18. SHIPPING

Shipping options, costs, expected processing periods, and other shipping information may be displayed at checkout or in a separate Shipping Policy.

Delivery dates are estimates unless expressly guaranteed in writing.

Miracle Peptides is not responsible for delays caused by circumstances outside our reasonable control, including carrier delays, severe weather, natural disasters, government actions, incorrect addresses, customs, service interruptions, transportation disruptions, or events of force majeure.

Customers are responsible for entering a complete and accurate delivery address.

19. TITLE AND RISK OF LOSS

To the extent permitted by law, risk of loss passes in accordance with the shipping terms and applicable law.

Customers should promptly inspect shipments upon delivery and notify Miracle Peptides of damaged, missing, or incorrect merchandise within the timeframe stated in our shipping or return policy.

20. RETURNS, REFUNDS, AND CANCELLATIONS

Return, refund, replacement, and cancellation eligibility will be governed by the policies displayed on the website at the time of purchase.

Because research materials can have integrity, contamination, temperature, storage, and chain-of-custody concerns, certain products may not be eligible for return after they have been shipped or delivered.

Nothing in these Terms eliminates rights that cannot legally be waived.

21. CHARGEBACKS AND PAYMENT DISPUTES

Customers should contact Miracle Peptides promptly to attempt to resolve legitimate billing or fulfillment concerns.

Fraudulent chargebacks, false claims regarding delivery, unauthorized-payment claims made by an authorized purchaser, or other deceptive payment disputes may result in account termination.

We reserve the right to provide transaction records, tracking information, communications, verification information, and related evidence to payment processors or financial institutions in connection with a dispute.

22. WEBSITE USE

The Miracle Peptides website may be used only for lawful purposes.

You may not attempt to gain unauthorized access to the website; circumvent account restrictions; introduce malware or malicious code; interfere with website security; use automated systems to overload the website; scrape proprietary information without permission; impersonate another person or organization; submit false information; use the website in furtherance of unlawful activity; or use the website in a manner that infringes another person's rights.

23. INTELLECTUAL PROPERTY

Unless otherwise stated, website content created by Miracle Peptides - including logos, original photographs, graphics, text, layouts, branding, product presentation, educational materials, and other original content - is owned by or licensed to Miracle Peptides.

You may not reproduce, republish, distribute, commercially exploit, modify, or create derivative commercial materials from Miracle Peptides proprietary content without written permission.

Third-party trademarks and scientific names remain the property of their respective owners.

24. NO IMPLIED PATENT LICENSE

The sale of a research compound does not grant the purchaser any express or implied patent, manufacturing, commercialization, therapeutic, or other intellectual-property license.

The purchaser is independently responsible for determining whether its research activities implicate any third-party intellectual-property rights.

25. THIRD-PARTY LINKS

The website may include links to websites operated by third parties.

Miracle Peptides does not control those websites and is not responsible for their content, security, availability, products, statements, or privacy practices.

A link does not necessarily constitute an endorsement.

26. SCIENTIFIC AND EDUCATIONAL INFORMATION

Miracle Peptides may make research publications, educational articles, chemical information, scientific references, or summaries available for informational purposes.

The inclusion of scientific information does not constitute medical advice; recommend human administration; establish product safety for human use; establish clinical efficacy; convert a research product into a drug or supplement; or authorize use outside the product's designated research purpose.

27. CUSTOMER CONTENT

If customers submit reviews, comments, photographs, suggestions, feedback, or other content, customers represent that they have the legal right to provide that material.

Miracle Peptides may remove content that promotes unauthorized human use; contains medical claims; provides personal-use instructions; is deceptive; is defamatory; violates law; violates another person's rights; or conflicts with our research-use-only policies.

Miracle Peptides is not required to publish customer-submitted content.

28. MARKETING AND AFFILIATE CONDUCT

Any distributor, affiliate, ambassador, marketer, contractor, influencer, or third party authorized to reference Miracle Peptides products must comply with all applicable laws and written Miracle Peptides marketing requirements.

Without written authorization, products may not be promoted using human-use claims, weight-loss claims, disease-treatment claims, bodybuilding claims, before-and-after human transformations, dosage instructions, injection demonstrations, testimonials describing personal consumption, claims of FDA approval, or other claims inconsistent with a research-use-only designation.

Miracle Peptides may immediately terminate relationships with third parties whose promotional conduct creates regulatory or legal risk.

29. DISCLAIMER OF WARRANTIES

TO THE MAXIMUM EXTENT PERMITTED BY LAW, THE WEBSITE AND RESEARCH PRODUCTS ARE PROVIDED SUBJECT TO THE EXPRESS INFORMATION ACCOMPANYING THEM AND WITHOUT WARRANTIES NOT REQUIRED BY APPLICABLE LAW.

Nothing in this provision excludes liability that cannot lawfully be excluded.

31. CUSTOMER INDEMNIFICATION

To the extent permitted by law, the customer agrees to indemnify and hold harmless Miracle Peptides and its owners, members, employees, agents, and service providers from claims, losses, liabilities, damages, or reasonable expenses arising from the customer's unlawful conduct; unauthorized product use; violation of these Terms; violation of applicable law; misrepresentation concerning purchase eligibility; unauthorized resale; or infringement of third-party rights.

32. EXPORT AND SANCTIONS COMPLIANCE

Customers may not purchase, transfer, export, re-export, or provide products in violation of U.S. export-control laws, economic sanctions, or other applicable trade restrictions.

Miracle Peptides may screen transactions and customers for regulatory compliance.

33. FRAUD PREVENTION

We may use internal or third-party systems to identify transactions associated with fraud, identity theft, payment abuse, account manipulation, policy violations, or suspicious activity.

Orders identified for additional review may be delayed, canceled, or subjected to additional verification.

34. ACCOUNT SECURITY

Customers are responsible for maintaining the confidentiality of account credentials.

Notify Miracle Peptides promptly if you suspect unauthorized use of an account.

Customers are responsible for providing accurate contact information so that security, compliance, and transaction-related notices can be delivered.

35. PRIVACY

Our collection and use of personal information is governed by the Miracle Peptides Privacy Policy.

The Privacy Policy is incorporated into these Terms by reference.

36. ELECTRONIC COMMUNICATIONS

By using the website or contacting Miracle Peptides electronically, you consent to receive transaction-related communications electronically.

These may include order confirmations, verification requests, shipping notices, account notices, security alerts, compliance communications, and policy notices.

Marketing communications are subject to applicable consent and opt-out requirements.

37. TERMINATION

Miracle Peptides may suspend or terminate website access or purchasing privileges when a customer violates these Terms or presents a reasonable compliance, fraud, safety, or legal concern.

Sections that logically survive termination - including intellectual-property, liability, payment-dispute, indemnification, privacy, and dispute provisions - will remain effective as applicable.

38. CHANGES TO THESE TERMS

Miracle Peptides may revise these Terms when necessary to reflect changes in law, regulation, business practices, website functionality, payment services, product offerings, or compliance procedures.

The date at the beginning of the Terms will indicate the most recent revision.
